

MAULANA AZAD NATIONAL INSTITUTE OF TECHNOLOGY, BHOPAL

PLACEMENT REPORT 2022-23

MASTER OF COMPUTER APPLICATION

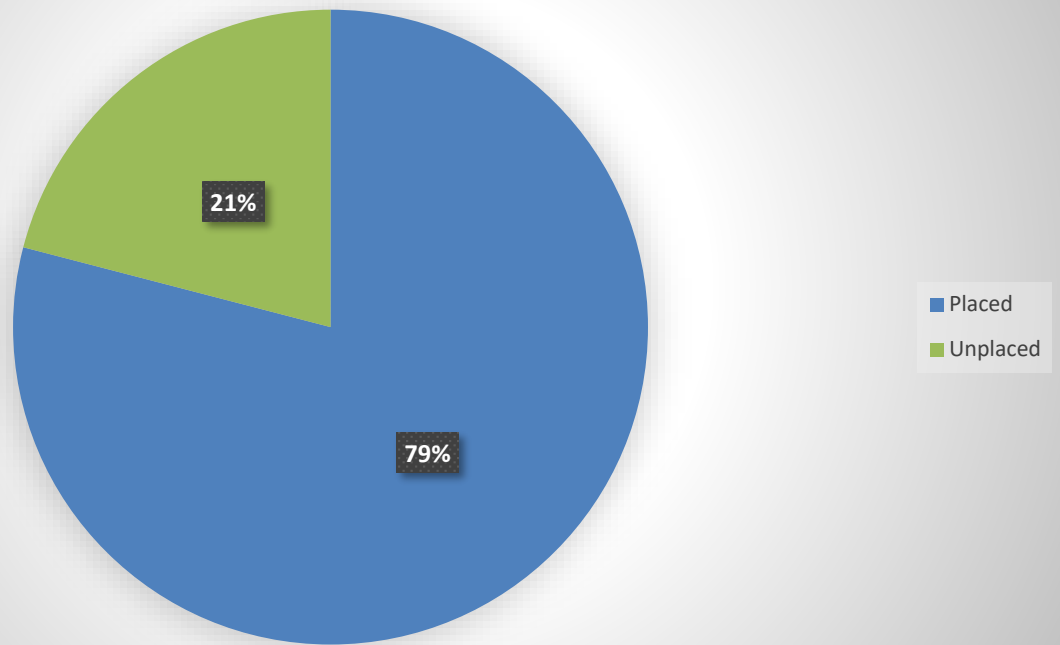

MCA: Batch 2022-23

The Department of Mathematics, one of the pioneering departments of the institution, since its inception, has catered to the needs of UG and PG students. The department offers three years Master program in Computer Applications (MCA). It offers value-based quality education through dedicated and well qualified faculty members who are involved in latest areas of research such as Cloud Computing, Computer Networking, Information Retrieval and Data Mining.

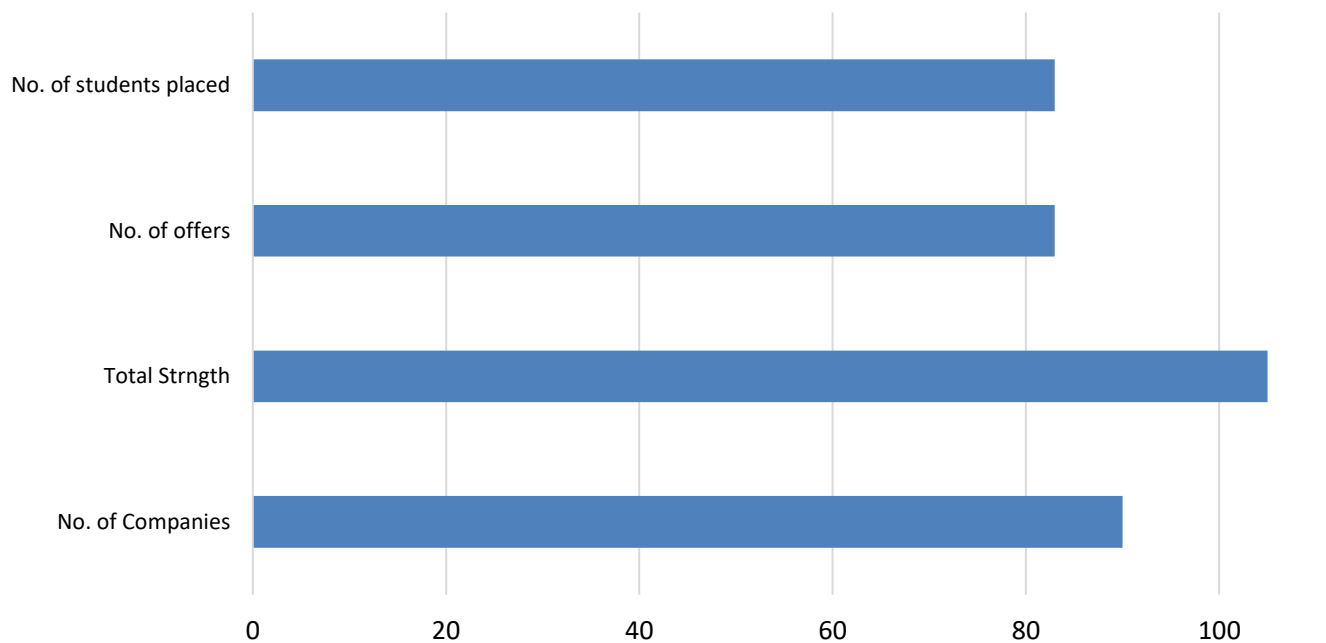

Placement Stats 2022-23:

Total Companies Visited	90*
Total Strength	105
Total No. Of Registered Candidates	105
No. Of Offers Made	90
Only 6M Intern	8
Students With FTE/6M+FTE	75
Total Selections	83
Percentage Of Placement	79%*
Highest Package	31.5 LPA
Average Package	12.2 LPA

Feedback from the panelists and student representatives:

1. Students lack in communications skills making it hard for them to be clearly expressive to the interviewers. This decreases their chances to be placed. The respective department should work on introducing the mechanism and measures like group discussions, mock interview rounds, etc. so that students are comfortable with the interview process beforehand.
2. The students which are yet to be placed or have faced rejections from multiple companies are more inclined towards bookish/abstract knowledge rather than developing technical expertise. These issues are seen batch by batch and hence they need to be addressed by instilling in upcoming batches, a motivation towards the skills that will help them get a decent placement.
